

SVA Consulting

professional guidance
for non-profit organisations and funders

Working with non-profit organisations to deliver on their mission and grow their impact.

Supporting philanthropists to make informed decisions about their social investments.

SVA Consulting was established by Social Ventures Australia (SVA) to ensure that Australian non-profit organisations and funders have the resources and support they need to deliver real benefits to the community.

Our professional staff have a depth and breadth of both corporate and non-profit experience, positioning us well to work alongside you to develop solutions that meet your distinctive challenges.

We work closely with non-profit clients in ongoing engagements to help them develop and implement their strategic plans, to improve their operations and to demonstrate their impact.

We also work with funders including foundations, philanthropists and governments to demonstrate funding impact, improve funding efficiency and identify organisations that deliver demonstrable outcomes.

SVA Consulting services are available to all community organisations and funders of the social sector. Our services are complementary to SVA's other professional services such as workshops and mentoring.

We are supported by major corporate supporter the Macquarie Group Foundation and philanthropist Robin Crawford and charge on a cost-recovery basis – keeping our fees low.

To discuss your needs or to find out more, please contact **Duncan Peppercorn**, Head of Consulting, on **02 8004 6724** or by email at dpeppercorn@socialventures.com.au
